Management

This service can be configured for Individual subscribers by [fdpi_ctrl](#)

The format of the instruction:

```
fdpi_ctrl instruction --service 1 [IP_list]
```

Instructions' syntax and IP addresses specification methods are described in details here: [Control instructions](#)

For example:

Enable participation in the bonus program for the specified subscribers by IP list:

```
fdpi_ctrl load --service 1 --cidr 192.168.0.0/24
```

Disable participation in the bonus program for 192.168.1.1:

```
fdpi_ctrl del --service 1 --ip 192.168.1.1
```
